TAYLOR, ROBERT ANTHONY
Case No. 3:13-CR-00097-21
May 16, 2014

The petition dated May 16, 2014, is superseded to include an additional infraction of Violation No. 1 and the addition of Violation No. 2. Additionally, the current status of the case and the probation officer's recommendation sections have been updated.

On June 3, 2013, defendant Robert Anthony Taylor appeared before Your Honor for an Initial Appearance as a result of being charged with violating Title 21 U.S.C. § 846, Conspiracy to Possess With Intent to Distribute and to Distribute Oxycodone, Hydromorphone, and Oxymorphone, Schedule II Controlled Substances, and Buprenorphine, a Schedule III Controlled Substance. The Government did not file a Motion for Detention, and the defendant was released on a personal recognizance bond with pretrial supervision.

Special Conditions of Release:

Please reference the attached Order Setting Conditions of Release.

VIOLATION(S):

Violation No. 1: Refrain from the use or unlawful possession of a narcotic drug or other controlled substances defined in 21 U.S.C. § 802, unless prescribed by a licensed medical practitioner; defendant shall notify Pretrial Services of any medication prescribed by a physician:

On May 8, 2014, the defendant submitted a urine screen that was confirmed positive for the presence of oxymorphone. Defendant Taylor also tested positive for buprenorphine, for which he had a previous prescription. He emphatically denies he used any illicit or nonprescribed substances.

On January 23, and again on May 17, 2014, this officer received medical records from the Nashville Therapy Center, located in Nashville, Tennessee. According to medical documentation, on June 27, 2013, Mr. Taylor was prescribed eight 0.5 milligram doses of Suboxone Film and instructed to take ½ of a film twice daily. Dr. Indukuri, the prescribing physician at the Nashville Therapy Center, advised Pretrial Services that Mr. Taylor was only seen on June 27, 2013, and no follow up was conducted.

Case No. 3:13-CR-00097-21
May 16, 2014

Violation No. 2: Submit to any testing required by the pretrial services officer or the supervising officer to determine whether the defendant is using a prohibited substance. Such methods may be used with random frequency and include urine testing, the wearing of a sweat patch, a remote alcohol testing system, and/or any form of prohibited substance screening or testing.

On May 19, 2014, Mr. Taylor reported to the U.S. Probation and Pretrial Services Office for a drug test and submitted a diluted urine screen.

Current Status of Case:

A jury trial is scheduled for June 24, 2014, at 9:00 a.m.

Probation Officer Action:

The supervising officer has continued to encourage Mr. Taylor to abstain from the use of illicit drugs or nonprescribed narcotics. On May 2, 2014, this officer communicated concerns regarding relapse with the defendant's substance abuse treatment counselor.

On May 8, 2014, the defendant informed the U.S. Probation and Pretrial Services Office Drug Program Assistant (DPA), who administered the urine screen, that he was prescribed Norco 325 milligrams for his dental issues.

On May 15, 2014, this officer contacted the defendant's mother and third-party custodian, Tammy Page, and inquired about the defendant's positive urine screen. Ms. Page informed the defendant was prescribed medication on April 9, 2014, and she opined Mr. Taylor was doing well and had not relapsed. On the same date, the defendant called this officer as requested. Mr. Taylor confirmed that on April 9, 2014, he had dental work completed and was prescribed ten Norco 325 milligram tablets. When this officer asked how many pills the defendant had remaining, he reported he had ½ of a tablet left. The defendant related he would throw the pill out to alleviate any further issues. This officer advised the defendant he could take his medication as prescribed. Mr. Taylor was informed he could not use illicit or nonprescribed substances, and he denied he abused narcotics.

On May 16, 2014, the supervising officer consulted with the DPA and also researched whether ingesting Norco tablets would yield a positive urine screen for oxymorphone. Investigation revealed the defendant's use of Norco would render him positive for opiates as opposed to oxymorphone. Additionally, a request for verification of defendant Taylor's continued participation in the Suboxone clinic was submitted to the treatment provider.

On May 19, 2014, the supervising officer contacted the defendant and requested he provide proof of a remaining Suboxone prescription. As of this writing, this officer has not had any subsequent

contact with the defendant.

Respectfully Petitioning the Court as Follows:

Although Mr. Taylor denies he used oxymorphone, on March 8, 2014, he tested positive for the substance. Also, the defendant has continued to test positive for Suboxone, but he has failed to submit an updated prescription to his pretrial services officer. Due to the defendant's continued drug use and his questionable use of Suboxone, Pretrial Services respectfully recommends that Mr. Taylor be ordered to appear before the Court to show cause as to why his bond should not be revoked.

Assistant U.S. Attorney Brent Hannafan has been advised of the above violations.
